

(14) From 1-11-2009, peak hour current generation as well as peak hour banked energy shall be eligible for peak hour utilization every month subject to the limit of one-twelfth of annual peak hour generation;

(15) Energy which remains unutilized as on 31-3-2010 shall be eligible for encashment at the rate prescribed in para 8.2.2 of Order No.1 of 2009 dated 20-3-2009 of TNERC;

(16) If a consumer opts out of wheeling agreement and becomes an ordinary consumer, A and E referred in the memo dated 17-11-2008 shall be deemed to be the base energy and base demand.

(17) Demand side management (DSM) is an effective tool to handle power shortage. This is the cheapest option and least time consuming compared to capacity addition. Accordingly, the Commission directs the TNEB to initiate appropriate action towards demand side management vigorously to bring down the demand; this would reduce either load shedding or the power purchase burden. An action plan on demand side management may be submitted to the Commission by 31-12-2009.

17. Appeal: An Appeal against this order lies to the Appellate Tribunal for Electricity as per Section 111 of the Electricity Act, 2003 within a period of 45 days.

Delivered by this Commission on the 28th day of October 2009.
